

BRITISH LIBERAL PARTY BREAK-UP

Internal Dissensions Make a Third
Party Necessary.

DIVISION IN PARLIAMENT.

American Notables in London—
Gallies West-Churchill Wedding—
Society and Drama.

London, July 28.—Special London cable letter, copyright, 1900, The Associated Press.—Almost as remarkable as the breakdown of long established social customs before the tropical wave is the break-up of the liberal party. A general election far distant the condition of the liberal party would be serious, but in view of the fact that the country is face to face with dissolution the situation of the opposition seems hopeless. The formation of a third party is generally considered almost inevitable as the result of the internal dissensions now raging in the liberal ranks. The imperialists have thrown off the mask and demanded control of the party, maintaining that both by numbers and influence they are entitled to dictate its policy. In this they are opposed by the "forward" or anti-imperialist liberals, with a vigor and bitterness that can only be compared to the acerbity with which the Gladstonians assailed the liberal unionists when home rule brought the parting of the ways.

CLIMAX IS REACHED.

The climax of the strife that has been simmering since the commencement of the Boer war came Wednesday, when one-third of the liberal party voted to condemn the colonial secretary, Joseph Chamberlain, and all his works. One-third voted with the government to sustain him, while the smallest section of the liberal party, the nominal leader, abstained from voting at all.

WAR HAS CAUSED IT ALL.

It is scarcely surprising that Sir Henry Campbell-Bannerman should be anxious to throw up his thankless task, but that only represents a minor feature of this grave situation. One of the liberal whips, William Alexander MacArthur, member for Leicester, has openly thrown off allegiance by voting with the government, an almost unprecedented action on the part of one holding such a position. Herbert Gladstone, the chief whip, is on the point of resigning to show disgust with what he believes to be the disloyalty of Sir Edward Grey and others who follow him.

WANT GREY FOR LEADER.

Meanwhile the imperialist section has demanded that Sir Edward Grey assume the leadership, which would be another way of making Chamberlain a mere back seat man in active political life. Such a development would never be swallowed by John Morley, Secretary of the Liberal Unionists, and his followers. Campbell-Bannerman's consent, under pressure, to temporarily retain the leadership is but a slim guarantee of peace within the liberal ranks, for upon any repetition of Wednesday's scene, he will promptly resign. It is impossible to see how such a repetition can be avoided, and so another secession from the liberal ranks, equal in gravity and split of 1886, may confidently be expected.

BRITAIN'S COAL SUPPLY.

The government is considering the appointment of a royal commission on the question of the future of the coal supply. This action is greatly due to the increasing production and cheapness of American coal and the diminishing supply of Welsh steam coal, with which warships are furnished.

CONGRESSMEN IN LONDON.

Four members of the ways and means committee of the United States House of Representatives were in London this week, namely, Chairman Serrano Payne, and Congressmen Charles H. Grosvenor, of Ohio; G. W. Steele, of Indiana; and John Dalzell, of Pennsylvania. All of these gentlemen came in search of renewed energy. Grosvenor will return to the United States August 1, in time to be present at the opening of the opening year in the presidential campaign at Lewiston, Maine. Messrs. Payne, Steele and Dalzell have gone on a trip through the north of England, and are now at Oxford. They will make the tour of Ireland before returning to the United States August 25.

LADY CHURCHILL'S SOCIAL POSITION.

Anticipations of the West-Churchill wedding have formed one of the chief topics in society this week. Quite a burning question is whether Lady Randolph Churchill will retain that name or be known as Mrs. West. It appears that she will retain it, but when presented to the queen it must be plain Mrs. West. By her remarriage she forfeits none of the fortune left by her first husband, which chiefly consists in a life interest in \$500,000. This, at her death, goes to her son, Winston Spencer Churchill, and Lady Randolph, in such portions as she may desire.

SPORTS AND THEATERS.

J. S. Taylor, the open golf champion of England, will sail for America August 1. He expects to remain in the United States about three months, playing matches with Harry Vardon and leading American golfers.

OPERA SEASON.

The opera season has been a record one, as far as profits are concerned, and the members of the syndicate will receive back practically all the money subscribed for the purchase of the theater and will have as assets a long lease of the house and its furniture.

Women everywhere are writing Dr. Hartman concerning the ailments peculiar to their sex. The two following letters, published by the consent of the writers as specimens. No wonder these ladies are enthusiastic. They had been sick a long time. Their cure was unexpected. The first one, Mrs. King, of North Carolina, writes: "I was afflicted for twenty years and did not know what ailed me. My husband employed three doctors, but they did me no good. I took different kinds of medicine, all to no effect. In 1895 a friend told me I had catarrh. I had a bad cough and running at the nose all the time. I was advised

CORNEED AND ROAST BEEF GO UPWARD

Largest Advance Ever Made by
Packers at One Jump.

WAR HAS CAUSED IT ALL.

All Surplus Stock is Disposed Of, and
the Demand is Increasing
Steadily.

Chicago, July 28.—The Record says: Prices on corned and roast beef have advanced from \$1.25 to \$1.50 per dozen for one pound cans. This is the largest advance ever made by Chicago and western packers at one jump.

The cause of the advance is the large demand for these goods by the United States government and foreign powers. When war was declared between the United States and Spain in April, 1898, the packers and their agents throughout the world had 20,000,000 pounds of corned and roast beef stored. This was disposed of and the packers began to replenish their stocks at their various warehouses.

Before this was completed the British-Boer war drew heavily upon the meat stores. England could not get her regular supply from Australia, owing to the drought which had killed off many cattle. Then before they had time to stock up again, with these commodities, the Boer trouble brought heavy demands from Japan and China. Besides this the packers have been compelled to supply Cape Nome and Klondike with about 2,000,000 pounds of roast and corned beef.

The exhausted stock, and with the heavy demand at present which they cannot fill except as they get the live cattle and kill them forced them to advance the prices so they could protect themselves for future deliveries. Besides the orders for canned meats and packers state they have large orders for bacon, sausage, short clear, short ribs and all side meats amounting in all to several million pounds.

A great deal of this stuff, especially the beef, is for use of the United States government, large quantities to be shipped to Manila and to the marines now in China. One of the big packers, in speaking about the advance, said: "If the demand for corned and roast beef increases during the next two weeks you will see corned and roast beef selling at \$2 per dozen one pound cans. Why, every packer in Chicago is working his plant to its fullest capacity, and then cannot begin to meet the demand."

ANTARCTIC DISCOVERIES.

Explorer Makes an Interesting Report Thereon.

San Francisco, July 27.—The report of Explorer Borzhgrevink, who was sent to the Antarctic in the interest of science in the auxiliary screw bark Southern Cross, has been received here.

In his report the explorer says that ice was first encountered on December 30, 1898, and that two weeks later, on January 14, land was first sighted. It proved to be Balaeney Island, but near approach was impossible, owing to the ice.

For forty-eight days the vessel was hemmed in the pack and preparations for a sledge journey to Victoria Land were being perfected when pressure slackened a little.

On the night of February 17 the Southern Cross dropped anchor in Robertson's bay. Stores were landed on South Victoria Land.

On the 23rd of January a severe southeast gale occurred. It lasted for forty-eight hours and two anchors were lost. The report states that but for the heroic work of the men, the vessel would have been lost.

March 1, the union jack was hoisted on Victoria Land and March 2, the Southern Cross, commanded by Captain Jensen, sailed for New Zealand.

OPEN THE WAY FOR CIVILIZATION

ASKS FOR DIVINE BLESSING

Germans to Make Path of Blood for
Christianity—Speech of a
Crunk.

Berlin, July 27.—The Lokal Anzeiger says the emperor, when addressing the troops at Bremerhaven before they sailed for China, referred first to the responsibilities which had sprung upon the German empire abroad during the last decade. Germany's iron, he said, must show in the face of the enemy whether their tendencies—the tendencies which German military methods had followed—were right. The comrades of the marine had already proved that the training and principles upon which that arm of the forces had been built up were right ones, and now it was for the troops to do the same.

"Every German has been filled with pride," continued his majesty, "to learn that the highest praise bestowed upon German warriors has come from the mouths of foreign leaders. The task before you is a great one. That a people like the Chinese should cast to the winds international right 1,000 years old and treat with scorn the sanctity of an ambassador and the right of hospitality in a manner so horrible is unprecedented in the history of the world. Every civilization now founded on Christianity is sure to be brought to naught."

"So I send you out. May you all prove your German efficiency, devotion and bravery, bear joyfully all discomfort and uphold the honor and glory of our arms. You must set an example of discipline, self-domination and self-control."

"If you close with the enemy, remember this: Spare nobody, make no prisoners. Use your weapons so that for 1,000 years hence no Chinaman will dare look askance at any German. Open the way for civilization once for all."

The address concluded as follows: "The blessing of the Lord be with you. The prayers of the whole people will accompany you in all your ways. My best wishes for yourselves and for the success of your arms."

"Give proofs of our courage, no matter where. May the blessing of God rest on your banners, and may He vouchsafe to you to find a path for Christianity in that far-off country. For this you have pledged yourselves to me with your oath to the colors. I wish you godspeed. Adieu, my comrades."

The Lokal Anzeiger's report of the speech differs from the semi-official report, notably in respect to the reference to sparing none and making no prisoners when coming into close quarters with the enemy, but the correspondent of the Associated Press was assured this evening by a perfectly responsible person who heard the speech that the Lokal Anzeiger's report is correct.

BOYS PLAY BOXERS.

Two Seriously Injured and a Score
of Others Bruised.

Chicago, July 28.—Fifty boys living in Brighton Park and New City, back of the stock yards, formed into two gangs, played "Boxers" with disastrous effect at Fortieth street and Western Avenue. When the fight was over two boys had received knife wounds in shoulder and hip and a score of others had been battered and bruised about the head with clubs in the hands of the "Boxers."

The seriously wounded: Richard Mack, stabbed in right shoulder; Jerry O'Leary, stabbed in right hip.

ARE HOPELESS AND BEWILDERED

New York, July 28.—A dispatch to the Tribune from London says:

The necessity for a censorship of press dispatches from Shanghai has been proved by the untrustworthiness of all accounts of the massacre alleged to have occurred on July 6. The foreign officers of Europe must now admit that they have been themselves deceived by sensational journalism, credulous as the state department may have been in accepting Mr. Conger's message for a date which they chose to assign to it.

Sir Claude MacDonald, who was a soldier before he was a diplomatist, explains what veterans in the China service have been unable to understand, namely, his method of successful defense for a period of at least nineteen days. From the opening of the siege the embassy guards occupied and held a battery of the city wall and from this position they commanded the open spaces around the British and Russian enclosures, and also prevented artillery and rifle fire from the high positions close at hand.

The Chinese had been using three-inch guns, but had not succeeded in organizing an effective plan of attack.

Veterans of the service who knew every foot of space in the British inclosure were amazed by the evidence that the assault upon the three legation embassies had been feeble, and were disposed to believe that the danger might have been exaggerated on July 6, just as it had been on June 24, when Sir Robert Hart sent his despairing appeal for rescue.

The Japanese minister gave expression yesterday to apprehension that the worst had happened in Peking, but he did not refer to any special sources of information in his possession. Dispatches until a late hour threw little light upon the situation.

The representatives of the foreign

office in parliament were silent, but I learned from the best sources of information that the feeling there was one of hopelessness and bewilderment, and that the massacre of the legations was regarded as highly probable, and imprisonment of the remnant of the foreign garrison as barely possible.

The sky is so heavily clouded with the mystery of China, the interminable guerrilla warfare in South Africa, and the famine in India that it is hardly necessary for Earl Wemyss to borrow trouble over the chances of an invasion of England next November and the insufficiency of the home defenses. Lord Salisbury has attempted to break the force of these outcries of alarm by a just about danger from shooting stars

In that month, but Lord Rosebery has rebuked him for ill-timed optimism. The curious debate in the house of lords yesterday has reflected the ominous talk which has been going on in the city for several days about the chances of a sudden attack from France, when the home defenses are the weakest. Probably these alarms merely indicate the excessive strain to which Englishmen have been subjected during the last ten months. Enormous purchases of Welsh coal by the Paris government and well authenticated reports that Dover and other channel fortifications have been secretly surveyed and charted by French naval experts, and reports made upon the defenses of Liverpool and other ports, are facts upon which the

alarmists lay stress, but the stock markets are not influenced by these sinister speculations.

HERE'S A REMARKABLE CASE.

FIVE OF SALT LAKE'S BEST PHYSICIANS FAILED UTTERLY TO RELIEVE THIS MAN IN FOUR YEARS—DRS. SHORES BRING ABSOLUTE RELIEF IN TWO MONTHS. "THE MONEY I PAID DR. SHORES WOULD NOT PAY INTEREST ON THE AMOUNTS I PAID TO EACH OF FIVE SALT LAKE DOCTORS."

SAYS MR. MILLARD. "I GOT MORE RELIEF IN TWO WEEKS UNDER DR. SHORES THAN IN FOUR YEARS DOCTORING WITH OTHER DOCTORS, AND WITH PATENT MEDICINES."

READ AND THEN GO SEE HIM. HE WILL BE GLAD TO TALK WITH YOU.

Mr. Millard says: "I can't thank Drs. Shores enough for their good work. I am a stone mason by trade, and every mason in the vicinity knows me and knows how I have suffered. I have spent every cent I have made in four years trying to get well. Five different doctors here utterly failed to relieve me. I have taken a trainload of patent medicines, used soaps and salves and got no benefit whatever. I got so I had to quit work entirely. My face was a mass of running sores. I got so weak I could not work. My face ached and burned and swelled up fearfully. Everyone thought me incurable, and I thought so myself until I went to Drs. Shores. I have been under Drs. Shores' care but two months, and after four years suffering, I feel easy now for the first time. My face is in excellent condition. I feel like a new man, am now working regular and never felt so well in years. I GOT MORE RELIEF IN TWO WEEKS UNDER DR. SHORES THAN I DID FROM FIVE OTHER DOCTORS IN FOUR YEARS. THE MONEY I PAID TO DR. SHORES WOULD NOT PAY THE INTEREST ON THE SUMS I PAID EACH OF THE OTHER FIVE DOCTORS WHO TREATED ME. It is simply wonderful and all my fellow workmen know the facts and will endorse it. I am not testifying to help Drs. Shores—but to help other sufferers. I earnestly ask all sufferers to call on me and learn the facts—I will be glad to tell them all about it. Thank God I now see a cure in sight."

MR. CHAS. MILLARD, Poplar Grove, Salt Lake City.

THE PUBLIC WARNED AGAINST "STEERERS."

Drs. Shores have no quarrel with any doctor in good standing. They are friends of the legitimate druggist, but when the "Bunco steerer" on the corner or behind the drug counter takes it upon himself to advise people not to go and see Drs. Shores, simply because they can make a profit by selling some patent medicines or skin soap to a sick man, it is time to call a halt. The case above is a fair sample. This poor man spent nearly four thousand dollars, seeking in vain for relief. He spent dollar after dollar trying this, that, and the other patent medicine, and still was advised not to go to Drs. Shores, by these cappers and steerers who were experimenting on him. When he finally came to Drs. Shores he had suffered four years, and spent thousands of dollars. He spent less than \$10 with Drs. Shores and is now practically a well man. Don't be hoodwinked by the "steerer."

When you are sick come to Drs. Shores and don't let anyone persuade you against your judgement. Drs. Shores have no "steerers" and pay no "take off" to anyone. Do you understand why they tell you not to go to Drs. Shores? There is no commission in it for them, that is why. Don't be deceived. Drs. Shores & Shores have no medicines for sale at any drug store. Come direct to the office if you want medicine or treatment. Consultation is always free.

\$3.00 A MONTH BY MAIL.

ALL DISEASES.

No one need be deprived of the advantages of this SPECIAL OFFER because of living away from the City. WRITE DR. SHORES AT ONCE, if you cannot call, FOR THEIR NEW SYMPTOM LIST AND QUESTION BLANKS, and take advantage of Drs.
